

SOC ANALYST LEVEL 1

ADDENDUM — PHASE-WISE GUIDE

Companion to: [SOC_L1_FINAL_FREE_ROADMAP_SHIVAM_2026.pdf](#)

Candidate: Shivam Kumar | BCA Sem 2 | June 2026

100% Free Resources | Version: Restructured

NOTE: Yeh original roadmap ko replace nahi karta. Sirf missing topics ko same phase format mein present karta hai. Roadmap + Addendum = Complete Set.

SEMESTER-WISE OVERVIEW — Addendum Topics

SEMESTER	PHASE	ADDENDUM ADDITIONS
Sem 2-3	Phase 1	Git Basics + GitHub Setup + Firewall/IDS/Hashing Concepts + Python Start
Sem 4-5	Phase 2	Python/Bash/PowerShell + ELK Docker + YARA Rules + AlienVault OTX
Sem 5-6	Phase 3	ATS Resume Builder + Scripting Portfolio GitHub pe
After BCA +3-4 yrs	Phase 4	Estonia Work Visa Reality Check

PHASE 1 — Foundation Building Additions

Sem 2 → Sem 3

Original Phase 1 mein networking, Linux, Windows basics hain. Yeh teen additions PARALLEL challenge — alag se time nahi chahiye.

1A. GitHub vs GitHub Copilot — Kya Use Karna Hai

TOOL	KYA HAI	SOC L1 KE LIYE	COST
GitHub (github.com)	Portfolio hosting — notes, writeups, SIEM queries, incident reports	ZAROORI — abhi banao	FREE
GitHub Copilot	AI coding assistant — code suggestions deta hai	Skip karo — zaroorat nahi	PAID

1B. Git Basics — Yeh Commands Seekhna Zaroori Hai

TOPIC	KYA SEEKHNA HAI	FREE RESOURCE
Git Basics	git init, add, commit, push, pull, clone, status, log	skills.github.com — free interactive course
Branching	branch, checkout, merge — basic samajh kaafi hai	git-scm.com/book (free official book)
Repo Setup	.gitignore aur README.md likhna, Markdown basics	markdownguide.org (free)
GitHub Pages	Optional — free portfolio website bana sakte ho	pages.github.com (free)
Daily Practice	Learning-Notes aur SOC-Portfolio repo daily commit karo	GitHub Desktop app (free) — easy for beginners

TIP: Har commit message clear likho — jaise 'Add: Wazuh installation writeup'. Hiring managers commit history dekhte hain — consistency = discipline.

1C. Firewall + IDS/IPS + Hashing — Concept Level Only

Yeh teen concepts original roadmap mein sirf indirectly cover the. SOC L1 alerts mein rozana saamne aate hain. Certification lena ZAROORI NAHI — sirf concept videos kaafi hain.

TOPIC	KYA SEEKHNA HAI	SOC MEIN KYU ZAROORI
Firewall	Types — packet-filtering, stateful, NGFW. Allow/Deny rules. Firewall logs padhna.	Alerts mein blocked vs allowed traffic dekhna roz ka kaam hai
IDS / IPS	Signature-based vs Anomaly-based. Snort/Suricata — sirf concept, install NAHI karna.	Wazuh jaisi tools IDS rules pe based hain — concept clear ho
Hashing & Encryption	Hashing (MD5, SHA256) vs Encryption (symmetric/asymmetric). TLS basic flow.	VirusTotal pe hash check karte ho — hash kya hai samajhna zaroori

RESOURCE	KYA KARNA HAI	URL	COST
Professor Messer Security+ SY0-701	Pura course NAHI — sirf Firewalls, IDS/IPS, Encryption, Hashing wale individual videos dekho. Same creator jo Network+ wala roadmap mein hai.	professormesser.com/sy0-701 (YouTube playlist)	FREE

TARGET: GitHub account banao + pehla commit karo | Git commands daily practice karo | Professor Messer se Firewall + IDS/IPS + Hashing ke 3-4 videos dekho | Python book ke first 2 chapters shuru karo

PHASE 2 — SOC Core Skills Additions

Sem 4 → Sem 5

Yeh additions Phase 2 ke labs ke saath parallel challenge. Alag se seekhne ki zaroorat nahi — CyberDefenders/Wazuh labs karte waqt apply karo.

2A. Programming / Scripting Languages — Priority Order

LANGUAGE	PRIORITY	KYU ZAROORI	FREE RESOURCE
Python	#1 — MUST	Log parsing, automation, VirusTotal API calls. SOC tools Python-based hain.	automatetheboringstuff.com freeCodeCamp YouTube
Bash	#2 — MUST	Linux log searching — grep, awk, sed, find combos. Quick triage scripts.	LinuxJourney (Phase 1 mein already) explainshell.com
PowerShell	#3 — MUST	Windows log queries — Get-WinEvent, Get-Process. Event ID 4104 samajhna.	Microsoft Learn — PowerShell for beginners (free)
SQL (Basic)	#4 — Good to Have	Kuch SIEM backends SQL-based queries support karte hain.	w3schools.com/sql — SELECT, WHERE, JOIN basics kaafi
Regex	Already Covered	SIEM queries (SPL/KQL) mein heavily use hota hai.	regex101.com — already Phase 2B mein hai

TIP: Alag se Python course complete karne ke peeche mat bhaago. Jab CyberDefenders labs karo, tab chhote scripts likhna shuru karo — jaise IP address VirusTotal API se check karne wala script. Yeh GitHub portfolio mein bahut accha lagta hai.

2B. Additional Free Tools — Phase 2 Additions

TOOL / RESOURCE	KYA HAI / KYU ZAROORI	FREE URL	PHASE
Self-Hosted ELK (Docker)	Original mein sirf 14-day cloud trial tha. Docker se install karo — free aur unlimited practice time.	elastic.co/guide — Run Elastic on Docker	2
YARA Rules	Malware detection rules padhna/samajhna. Bahut SOC job descriptions mein mention hota hai.	yara.readthedocs.io + github.com/InQuest/awesome-yara	2
AlienVault OTX	Free threat intelligence — IOCs (IP/domain/hash) community-driven pulses. VirusTotal ke saath use karo.	otx.alienvault.com (free account)	2-daily
explainshell.com	Har Bash command ka breakdown — Bash sikhte waqt parallel use karo.	explainshell.com	1-2

TARGET: Python se ek working script likho (VirusTotal API / log parser) | Bash se log triage practice karo | PowerShell Get-WinEvent use karo | Docker pe ELK setup karo | AlienVault OTX se ek IOC investigate karo | Sab GitHub pe writeup karo

PHASE 3 — Portfolio + Job Prep Additions

Sem 5 → Sem 6

Original Phase 3 mein GitHub structure, LinkedIn strategy, aur communication practice hai. Addendum ka ek important addition — ATS-friendly resume builder.

3A. Free ATS-Friendly Resume Builder

ATS (Applicant Tracking System) aaj har company use karti hai. Format galat hua toh resume automatically reject ho jaata hai interview se pehle hi.

RESOURCE	KYU USE KARO	URL	COST
novoresume.com ya resume.io	ATS-friendly templates — fresher cybersecurity section ke saath. Clean format. Easy to edit.	novoresume.com / resume.io	FREE tier

3B. Resume Mein Kya Daalo — SOC L1 Fresher

SECTION	KYA LIKHO
Summary	Aspiring SOC Analyst Blue Team BCA Final Year Cybersecurity Student
Skills	Splunk, KQL/SPL, Wazuh, Wireshark, MITRE ATT&CK, Python (basic), Bash, Windows Event IDs
Certifications	Cisco badge, IBM badge, Fortinet NSE 1-3, SC-900, Splunk Fundamentals
Projects	GitHub portfolio link + top 2-3 writeups describe karo (labs, Wazuh setup)
Education	BCA — Year, College — degree ka naam clearly likho
Avoid	Fake certifications, skills jo actually nahi aate, generic objective statements

3C. Scripting Portfolio — GitHub Pe Add Karo

Phase 2 mein jo Python/Bash/PowerShell scripts likhoge — unhe properly Phase 3 mein GitHub pe showcase karo.

SCRIPT TYPE	EXAMPLE	LANGUAGE	GITHUB FOLDER
IOC Checker	IP/hash VirusTotal API se automatically check karo	Python	05-SIEM-Queries/Scripts
Log Parser	auth.log se failed logins extract karo	Python + Bash	03-Log-Analysis
Alert Triage	4625 events count karo aur threshold pe alert	PowerShell	03-Log-Analysis
Hash Generator	File ka MD5/SHA256 calculate karo	Python	04-Investigations

TARGET: ATS-friendly resume banao free template se | GitHub pe minimum 2-3 working scripts daalo | Resume mein sirf verified skills aur real certs | LinkedIn pe GitHub link add karo

PHASE 4 — Estonia Work Visa Reality

After BCA + 3-4 Years

TIP: IMPORTANT: Yeh sirf AWARENESS ke liye hai. Ab koi action NAHI lena. Pehle India mein 3-4 saal genuine SOC experience lo — uske baad yeh relevant hogi.

4A. Estonia Work Visa — Key Facts

POINT	DETAIL
Job Offer First	Estonia alag work permit nahi deta. Non-EU citizens ko registered Estonian employer se job offer + contract chahiye. Uske baad residence permit process shuru hota hai.
2026 Immigration Rules	2026 mein rules tight ho rahe hain — employers ko 'local recruitment attempt' proof dikhana padega. Matlab jitna strong India experience, utna easier sponsorship.
Salary Range	Roughly EUR 1,200–2,900 per month. Cybersecurity analysts upper range mein aate hain.
Schengen Benefit	Estonia mein job mile toh 26 Schengen countries mein visa-free travel — big lifestyle plus.
Action Item (Future)	Job ke 2nd-3rd saal mein: Estonian companies/recruiters LinkedIn pe follow karo, EU Blue Card jobs explore karo.
Source Note	June 2026 tak ke public visa guides se verified. Final application ke time Estonian embassy / PPA website dobara check karna.

4B. Estonia Prep — Phase-Wise Plan (Long-Term)

AREA	KYA KARNA HAI	FREE RESOURCE	TIMELINE
SOC Experience	Min 3-4 saal India mein genuine SOC experience — bina iske apply karna time waste.	—	After BCA +3-4 yr
GDPR	European data privacy — personal data, breach reporting.	gdpr.eu (official free)	Year 2-3 of job
ISO 27001	Information security management — concept awareness kaafi.	Google ISO 27001 intro PDF	Year 2-3 of job
English	Professional English — Estonia sab kuch English mein hai.	Darknet Diaries + BBC Learning English	Start NOW
CySA+	Best L2 cert EU ke liye. 2 saal experience ke baad shuru karo.	Professor Messer YouTube	2-3 yr into job

TARGET: Ab koi action nahi — sirf awareness | English ABHI se Darknet Diaries se practice shuru karo | India mein 3-4 saal experience ke baad Estonia plan start karo

ADDENDUM — COMPLETE RESOURCE MASTER LIST

Quick Reference

RESOURCE	URL	KYA MILTA HAI	PHASE
GitHub Skills	skills.github.com	Free interactive Git/GitHub course	1
git-scm Book	git-scm.com/book	Official free Git book	1
Markdown Guide	markdownguide.org	README.md likhna seekho	1
GitHub Pages	pages.github.com	Free static portfolio website	1-3
Prof Messer Sec+	professormesser.com/sy0-701	Firewall/IDS/Hashing concept videos	1
Automate Boring Stuff	automatetheboringstuff.com	Free full Python book	1-2
explainshell.com	explainshell.com	Bash command breakdown	1-2
Elastic Docker Guide	elastic.co/guide	Self-hosted ELK — free, unlimited practice	2
Awesome YARA	github.com/InQuest/awesome-yara	YARA rules + resources	2
AlienVault OTX	otx.alienvault.com	Free threat intel IOC feeds	2-daily
YARA Docs	yara.readthedocs.io	Official YARA documentation	2
novoresume.com	novoresume.com	ATS-friendly free resume template	3
resume.io	resume.io	ATS resume template (alternative)	3
gdpr.eu	gdpr.eu	Official GDPR guidance — EU prep	4

FINAL VERDICT

Roadmap (FINAL) + Yeh Addendum (Phase-Wise) = COMPLETE SET. Koi naya gap dhundhne ki zaroorat nahi. Ab 100% focus EXECUTION pe. Labs → Writeups → Portfolio → Job. Koi shortcut nahi. Sirf consistency.

ADDENDUM — 6 IRON RULES

#	RULE
1	Git daily commit karo — ek bhi din miss mat karo. Consistency = discipline = job.
2	Python/Bash/PS ko alag course ki tarah mat dekho — labs ke saath parallel seekho.
3	YARA aur AlienVault OTX Phase 2 mein ek baar zaroor use karo — portfolio piece banega.
4	Resume Phase 3 mein banao — pehle nahi, baad mein bhi nahi.
5	Estonia planning abhi nahi — India experience pehle. Focus divide mat karo.
6	Addendum bhi ab FINAL hai — isko bhi dobara mat badlo.
